- Section 6** — Performance Analysis & Optimization
- Section 7** — Retargeting & Funnel Optimization
- Section 8** — Testing & Experimentation
- Section 9** — Conclusion

SECTION 1

Introduction

This prompt pack transforms ChatGPT into your personal Facebook Ads strategist. Each of the 75 prompts is designed to solve a specific challenge in your campaign workflow—from diagnosing underperforming ads to writing scroll-stopping copy and analyzing conversion data.

How to use these prompts: Copy any prompt exactly as written, then customize the bracketed sections [like this] with your specific campaign details. Paste into ChatGPT (GPT-4 recommended) and refine the output through follow-up questions. Use these prompts in sequence to build complete campaign strategies, or individually to solve urgent problems.

★ KEY INSIGHT

Pro tip: Save your best ChatGPT responses in a swipe file. The more context you provide in brackets, the better your results. Treat these as conversation starters—iterate with ChatGPT until you have exactly what you need.

SECTION 2

Campaign Strategy & Structure

"Create a comprehensive Facebook Ads campaign structure for [product/service]. Include campaign objectives, 3-5 ad sets with detailed targeting parameters, budget allocation recommendations, and bidding strategy. My monthly budget is [\$X] and my primary goal is [awareness/conversions/leads]."

"Develop 5 distinct audience segments for [product/service] targeting [demographic]. For each segment, provide: detailed interest combinations, behaviors, pain points, messaging angles, and expected cost per result. Focus on audiences most likely to convert within [budget range]."

"Map a complete customer journey for [product] with specific Facebook ad formats for each stage: awareness, consideration, and conversion. Include recommended ad types, content themes, retargeting windows, and success metrics for each funnel stage."

"Analyze this Facebook ad approach from my competitor [describe their ad]. Identify their strategy, target audience, value proposition, and psychological triggers. Then suggest 3 ways I can differentiate my [product/service] campaign while targeting similar audiences."

"I have [\$X] monthly budget for Facebook Ads promoting [product/service]. Create a budget allocation strategy across prospecting, retargeting, and testing. Include daily spending limits, scaling triggers, and when to kill underperforming ad sets."

"I want to [business goal]. Recommend the optimal Facebook campaign objective and explain why. Compare it to alternative objectives, and outline the conversion setup required. My average order value is [\$X] and customer LTV is [\$X]."

"Design a structured testing plan for [product] with 3 ad sets testing [variable: audience/creative/placement]. Provide specific parameters for each ad set, how long to run the test, minimum budget needed, and what metrics indicate a winner."

"My ad set is performing at [CPA/ROAS] with [\$X] daily budget. Create a 4-week scaling plan with specific budget increases, when to duplicate winning ad sets, audience expansion tactics, and warning signs that I'm scaling too fast."

"Create a Facebook Ads campaign timeline for [product/service] around [holiday/season]. Include pre-launch awareness ads, peak-season conversion campaigns, messaging evolution, budget pacing, and post-season retargeting strategy."

"I sell [list 3-5 products]. Design a campaign structure that promotes multiple products without cannibalizing budget. Include product prioritization logic, crossover audience handling, and how to identify which products to push harder."

SECTION 3

Ad Copywriting & Messaging

"Write 10 attention-grabbing first lines for a Facebook ad promoting [product] to [target audience]. Focus on hooks that address [specific pain point]. Make them pattern-interrupting, curiosity-driven, and under 12 words each."

"Write a full Facebook ad for [product/service] targeting [audience]. Include: hook, problem agitation, solution presentation, social proof element, clear CTA, and objection handling. Tone should be [casual/professional/urgent]. Keep primary text under 125 characters for mobile optimization."

"Create ad copy for [product] that deeply addresses this pain point: [describe problem your audience faces]. Amplify the pain, introduce my solution naturally, and create urgency. Write in a [empathetic/direct/story-driven] voice."

"List 8 compelling benefit-driven bullet points for [product/service]. Transform features into emotional outcomes. Each bullet should answer 'what's in it for me?' and be scannable. Target audience is [demographic/psychographic]."

"My target audience's main objections to [product] are [list 2-3 objections]. Write ad copy that preemptively addresses these concerns while maintaining persuasive momentum. Include a risk-reversal element."

"Write a story-based Facebook ad for [product]. Use this structure: relatable problem scenario, turning point where customer discovers solution, transformation/result, and soft CTA. Keep it conversational and under 150 words. Audience is [description]."

"Rewrite this ad copy [paste your copy] to seamlessly incorporate social proof. Add specific numbers, customer results, testimonial fragments, or credibility indicators without making it sound salesy. Maintain the original tone."

"Add authentic urgency to this ad [paste copy] without sounding gimmicky. Use [time-limited offer/inventory scarcity/seasonal relevance/consequence of inaction]. Make the urgency feel genuine and value-driven, not manipulative."

"Generate 10 different call-to-action phrases for [product/service] that go beyond 'Shop Now.' Match each CTA to a specific stage of awareness: unaware, problem-aware, solution-aware, product-aware, and most-aware customers."

"Create 3 distinct variations of ad copy for [product], each testing a different angle: [emotional vs. rational], [feature vs. benefit], or [problem vs. solution]. Keep structure similar but messaging distinct enough to yield meaningful test results."

"Write 15 headlines for [product/service] using proven formulas: how-to, question, number-based, negative angle, 'reason why,' testimonial, and direct benefit. Each under 40 characters. Target audience: [description]."

"Write an in-depth Facebook ad (300+ words) for [complex product/service] targeting [educated/research-driven audience]. Include: origin story, detailed explanation, mechanism, proof, multiple CTAs. Structure for high engagement and readability."

"Create a 30-second video ad script for [product] following this structure: hook (first 3 seconds), problem presentation, solution demo, social proof, and CTA. Include visual direction notes and on-screen text suggestions."

"Take this plain ad copy [paste copy] and enhance it with strategic emoji use, line breaks, and formatting for mobile readability. Maintain professionalism while increasing visual scan-ability and emotional impact."

"Rewrite this ad copy [paste copy] in three different brand voices: [premium/luxury], [friendly/approachable], and [bold/edgy]. Keep the core message but adjust language, formality, and personality to match each tone."

SECTION 4

Audience Targeting & Research

"Create a detailed customer avatar for [product/service]. Include: demographics, psychographics, daily routine, pain points, aspirations, objections, media consumption habits, and the exact language they use to describe their problems. This will inform my targeting and messaging."

"Generate 10 specific Facebook interest targeting combinations for [product] that go beyond obvious choices. Include layered interests (combining 2-3), exclusions to refine audiences, and the strategic reasoning behind each combination."

"I have [source: email list/website visitors/past purchasers] of [size] people. Design a lookalike audience strategy including: which percentage lookalikes to create (1%, 3%, 5%, 10%), how to layer them with interests, and testing sequence."

"Map out 7 custom audience segments from my existing traffic for [product]. Include: website visitors by page, engagement audiences, video viewers by percentage, and strategic retargeting sequences with specific messaging for each segment."

"Analyze optimal demographic targeting for [product/service]. Should I target all genders or specific? What age ranges? Geographic considerations? Provide recommendations with reasoning based on [product characteristics] and typical buyer behavior."

"Identify 8 Facebook behavior-based targeting options perfect for [product/service]. Go beyond basic behaviors—find sophisticated options like purchase behaviors, device usage, travel patterns, or anniversary dates that indicate buying intent."

"Create a comprehensive exclusion strategy for [product] campaigns. List audiences to exclude from prospecting (existing customers, converters, engaged non-buyers) and explain how this improves efficiency and prevents ad fatigue."

"Design a geographic targeting approach for [product/service] considering: local business radius, shipping limitations, regional preferences, climate relevance, or income-based zip code targeting. Provide specific radius/location recommendations."

"Help me find niche audiences for [product] by identifying: adjacent interests, complementary products they buy, influencers they follow, publications they read, and events they attend. Suggest 10 non-obvious targeting options."

"My core audience [describe current targeting] is exhausted. Create an audience expansion plan with 5 new cold audience segments that share characteristics with converters but haven't been tapped. Include testing priorities."

SECTION 5

Creative Strategy & Asset Development

"Brainstorm 8 static image ad concepts for [product]. For each, describe: main visual element, text overlay content, color psychology, composition, and what emotion/reaction you're targeting. Consider mobile-first viewing."

"Create a detailed storyboard for a 15-second video ad for [product]. Include 5 scenes with: timestamp, visual description, voiceover/text, transition style, and strategic purpose of each scene. End with compelling CTA frame."

"Design a 5-card carousel ad for [product/service]. For each card specify: image concept, headline, description, and how it builds on the previous card. Create a narrative flow that drives users to the final CTA card."

"Develop a UGC (user-generated content) campaign strategy for [product]. Include: what to ask customers to create, incentive structure, how to get rights/permissions, and how to repurpose UGC into ads. Provide outreach message template."

"Create a before/after transformation ad concept for [product/service]. Describe the visual representation, what contrast to show, supporting copy, and how to make the transformation feel achievable and credible to [target audience]."

"Compare two creative approaches for [product]: lifestyle-focused (product in use) vs product-focused (hero shot). For each approach, describe ideal visual execution, messaging angle, what audience segments each appeals to, and when to use which."

"Adapt my existing ad creative for [product] to [upcoming season/holiday]. Suggest visual modifications, copy adjustments, color palette changes, and seasonal hooks that make the ad feel timely without being cliché."

"Review my ad creative concept [describe it] and optimize it for mobile viewing. Suggest adjustments to: text size/placement, image composition, focal point, aspect ratio, and thumb-stopping elements for feed versus stories placement."

"Create brand guidelines for Facebook ad creatives for [company/product]. Define: color palette, font usage, logo placement, image style (photography vs illustration), tone, and design elements that should remain consistent across all ads."

"My ad creative is showing fatigue [describe metrics]. Generate 5 creative refresh ideas that maintain the winning message but present it differently. Include: new visual angles, format changes, and incremental testing approach."

SECTION 6

Performance Analysis & Optimization

"Analyze my campaign metrics: [impressions], [CTR]%, [CPC \$X], [conversion rate]%, [CPA \$X], [ROAS X]. Identify the primary bottleneck, what's performing well, and provide 3 specific optimization actions ranked by expected impact."

"My ad has [X]% CTR with [audience]. Industry benchmark is [Y]%. Diagnose why performance is [above/below] average. Provide specific recommendations for: headline, image, targeting refinement, or placement adjustments to improve CTR."

"I'm getting clicks (CTR: [X]%) but low conversions (CVR: [X]%). Analyze the disconnect between ad and landing page. Provide a message-match checklist and suggest ad copy adjustments or landing page elements to improve conversion alignment."

"My CPA is \$[X] but needs to be under \$[Y] to be profitable. Current metrics: [provide CTR, conversion rate, CPC]. Calculate what needs to improve and by how much. Prioritize optimization levers from highest to lowest impact."

"Current ROAS is [X] but I need [Y] for profitability. Average order value: \$[X], CPA: \$[X]. Create a systematic improvement plan addressing: offer optimization, audience refinement, funnel additions, and creative improvements."

"My ad frequency is [X] and performance is [declining/stable]. Explain what this means for my campaign health. Provide specific frequency thresholds for: when to refresh creative, expand audience, or increase budget."

"Compare my results across placements: Facebook Feed [metrics], Instagram Feed [metrics], Stories [metrics], Audience Network [metrics]. Recommend: which to turn off, which to scale, and budget reallocation percentages."

"Analyze my ad performance by: day of week and hour of day. Current data: [describe any patterns you've noticed]. Suggest dayparting strategies, budget scheduling, or ad scheduling tactics to improve efficiency."

"Explain attribution windows for my [product] with [consideration period]. Should I use 1-day, 7-day, or 28-day click? How about view-through? Recommend optimal attribution setting and explain impact on reporting and optimization."

"I'm testing two ad variants. Ad A: [impressions], [conversions], [cost]. Ad B: [impressions], [conversions], [cost]. Determine if results are statistically significant, how much longer to run the test, or if I can declare a winner."

"Create a comprehensive Facebook Ads account audit checklist for [product/business type]. Include: campaign structure review, targeting efficiency, creative performance, technical setup, pixel verification, and conversion optimization opportunities."

"Evaluate if my campaign is ready to scale. Current performance: [daily budget], [ROAS/CPA], [frequency], [days running]. Provide a scaling readiness score and specific conditions that should be met before increasing budget."

"My campaign is underperforming: [describe current results vs expectations]. Walk through a systematic diagnostic process covering: targeting issues, creative problems, offer weakness, technical errors, and bidding strategy. Identify the most likely culprit."

"My best-performing ad has [describe metrics]. Analyze why it's winning: messaging angle, visual elements, audience fit, offer strength, and emotional triggers. Extract principles to apply to new creatives."

"Create a weekly Facebook Ads performance report template for presenting to [stakeholder]. Include: key metrics to track, performance context (week-over-week changes), insights section, and action items. Make it executive-friendly and focused on [business goal]."

SECTION 7

Retargeting & Funnel Optimization

"Design a complete retargeting sequence for [product]. Map out: initial site visitors (0-3 days), engaged non-buyers (4-14 days), abandoned carts, and long-term nurture (15-30 days). Include specific messaging angle and offer escalation for each window."

"Create a high-converting cart abandonment ad strategy. Include: timing (when ads should appear), messaging that addresses abandonment psychology, incentive structure (if any), and urgency elements. Product is [description] with AOV of \$[X]."

"Develop a post-purchase Facebook ad campaign for customers who bought [product A]. Recommend: complementary products to promote, timing after initial purchase, messaging approach that feels helpful not pushy, and expected conversion rates."

"Build a video-based retargeting funnel. Stage 1: [% video viewers] see [content]. Stage 2: [engaged viewers] see [content]. Stage 3: [high-intent viewers] see [offer]. Include video length, messaging, and conversion expectations for each stage."

"Create retargeting campaigns for users who engaged with my content but didn't visit my site. Audiences: page engagers, post reactors, video viewers. For each, provide: messaging angle, creative direction, and conversion strategy."

"Target users who viewed [product category/specific products] but didn't add to cart. Write ad copy that: reminds them what they viewed, addresses potential hesitations, adds social proof, and creates urgency. Include dynamic product ad strategy."

"Segment retargeting by assumed objection. For users who [bounced quickly]: address [objection]. For those who [visited multiple times]: address [different objection]. Create 3 audience-objection pairs with matching ad copy."

"Customers who bought [Product A] often need [Product B]. Design a cross-sell campaign including: timing after initial purchase, how to position the offer, bundling strategy, and messaging that connects the two products naturally."

"Create a re-engagement campaign for previous customers who haven't purchased in [X] days. Include: win-back messaging angle, special offer structure, nostalgia/reminder elements, and sequence escalation if first ad doesn't convert."

"Map a multi-touch funnel where prospects see 3-5 ads before converting. Define each touchpoint: [awareness ad content], [consideration ad content], [conversion ad content], and how messaging evolves. Include audience targeting for each stage."

SECTION 8

Testing & Experimentation

"I want to test [element: creative/audience/copy/placement]. Formulate this as a proper hypothesis: 'If I [change], then [expected outcome] because [reasoning].' Design the test with control, variant, success metrics, and minimum test duration."

"Create a testing matrix for [product] that isolates variables. Test: [3 headlines] x [2 images] x [2 CTAs]. Provide a structured testing sequence, how to organize ad sets, budget requirements, and analysis framework."

"Design a systematic audience testing plan. Test interests, demographics, behaviors, and lookalikes against each other. Provide: test structure, holdout control group strategy, budget allocation per audience, and decision criteria for winners."

"Test different offers for [product]: [full price], [X% discount], [free shipping], [bonus item]. Structure the test to isolate offer impact, maintain creative consistency, calculate true profitability of each, and recommend sustainable offer strategy."

"I want to test message match between ads and landing pages. Design an experiment with: [Ad version A → Landing page A] vs [Ad version B → Landing page B]. Ensure proper message continuity and provide analysis framework for results."

Retention & Customer Journey Optimization

"Design a 30-day retargeting funnel for [product/service]. Include: ad creative for each funnel stage, frequency caps, attribution windows, and budget allocation. Address: cart abandoners, page viewers, video watchers, and past purchasers with relevant messaging."

"I want to maximize CLV from Facebook customers. Current AOV is [amount] with [X]% repeat rate. Create strategy for: retention campaigns, upsell sequences, reactivation ads, and loyalty program promotion. Calculate acceptable CAC based on projected CLV."

"Design a Facebook retargeting sequence for customers who bought [product]. Include: thank you message, usage tips, complementary product suggestions, review requests, and referral incentives. Specify timing, creative approach, and conversion goals for each."

"Create multi-touch cart abandonment campaign. Average cart value: [amount]. Design: immediate reminder, urgency-based follow-up, discount threshold decision, and final reminder. Include copy variations, visual hooks, and conversion tracking setup."

"Customers who bought [Product A] often need [Product B]. Design cross-sell campaign with: audience segmentation by purchase recency, benefit-focused messaging, bundle offers, and sequential ad delivery. Provide profitability analysis framework."

Advanced Analytics & Attribution

"My customer journey spans: Facebook ad → website visit → email → Facebook retargeting → purchase. Help me understand true Facebook contribution. Design attribution model comparing: last-click, first-click, linear, time-decay, and position-based attribution."

"Analyze the complete path to conversion. Provide framework to track: initial touchpoint, assists, time to conversion, device switching, and cross-channel interactions. Identify bottlenecks and recommend optimization points specific to Facebook's role."

"Design test to measure incremental conversions from Facebook ads. Compare: test group (exposed to ads) vs control group (not exposed). Include: audience selection, test duration, statistical significance requirements, and interpretation guidelines."

"Create cohort analysis for customers acquired through Facebook in [timeframe]. Track: retention rates, repeat purchase behavior, lifetime value progression, and engagement patterns. Identify highest-value acquisition periods and replicate conditions."

"Build comprehensive ROI framework for [campaign type]. Include: ad spend, creative production costs, time investment, attributed revenue, return rate impact, and customer lifetime value. Provide breakeven analysis and scaling threshold recommendations."

Seasonal & Event-Based Campaigns

"Create Facebook campaign strategy for [holiday/event]. Timeline: [weeks until event]. Include: awareness phase creative, consideration phase offers, last-minute urgency tactics, and post-event follow-up. Address inventory levels and shipping deadlines."

"Design 48-hour flash sale campaign for [product/category]. Objectives: urgency, high conversion, inventory clearance. Create: pre-announcement teaser, launch blitz strategy, countdown reminders, and final hours push. Include budget allocation and success metrics."

"Transition Facebook campaigns from [current season] to [upcoming season]. Analyze: declining product interest, emerging opportunities, audience behavior shifts, and messaging pivots. Create phased transition plan with creative refreshes and budget reallocation."

"Create automated campaign triggered by [industry event/news/trend]. Design: rapid response framework, timely creative approach, relevance-driven messaging, and momentum capitalization strategy. Include approval workflow and deployment timeline."

"Launch [new product] on Facebook. Pre-launch phase: [duration]. Create: anticipation-building content, early access strategy, influencer coordination, launch day tactics, and sustained momentum plan. Include audience targeting evolution through launch phases."

Crisis Management & Problem Solving

"My campaigns were performing well but CPAs increased [X]% in past [timeframe]. Current metrics: [provide data]. Systematically diagnose potential causes: audience fatigue, increased competition, seasonality, creative decay, platform changes, or external factors."

"My ad was disapproved for [reason]. Product: [description]. Help me: understand the policy violation, modify creative/copy to comply, prepare appeal if appropriate, and prevent future disapprovals. Maintain persuasive impact while ensuring compliance."

"Facebook budget reduced from [amount] to [amount]. Maintain maximum results with: campaign consolidation, audience refinement, creative efficiency, bidding strategy adjustment, and strategic

pausing. Prioritize highest-ROI activities."

"Campaign receiving negative comments about [issue]. Address: comment response strategy, ad modification needs, audience exclusion tactics, and reputation protection. Balance: addressing concerns vs. campaign continuation and maintaining positive brand perception."

"Facebook restricted [account feature/spending]. Situation: [details]. Create action plan: immediate steps, documentation to provide, communication approach, alternative tactics during restriction, and prevention strategy for future."

Competitive Intelligence

"Analyze competitor [name] Facebook ads. Identify: messaging angles, offer structures, creative patterns, apparent targeting, campaign objectives, and engagement levels. Find opportunities they're missing and advantages we can leverage."

"Competitors are advertising [similar product/service] with [approach]. Help me differentiate with: unique value propositions, underserved audience angles, creative distinction, and positioning strategy. Turn competitive pressure into opportunity."

"Competitor launched aggressive campaign with [offer/angle]. Design response that: addresses their claims, highlights our advantages, captures consideration-stage customers, and strengthens our position without appearing reactive or negative."

"Using Facebook Ad Library, research [industry/product category] advertising landscape. Create systematic analysis process: identify patterns, extract insights, spot trends, benchmark performance indicators, and discover whitespace opportunities."

"Current market is crowded with [describe competition]. Help me find blue ocean opportunities: underserved audiences, alternative use cases, different problem framing, unique bundling approaches, or positioning angles competitors haven't explored."

SECTION 9

Conclusion

Maximizing Your Facebook Ads Success

This collection of 100 AI prompts provides a comprehensive framework for optimizing every aspect of your Facebook advertising campaigns. From initial strategy development through advanced analytics and crisis management, these prompts serve as your on-demand marketing consultant.

How to Use This Prompt Pack Effectively

Start with Strategy: Use the foundational prompts (1-20) to establish solid campaign structure before diving into optimization.

Customize for Your Context: Replace bracketed placeholders with your specific business details for tailored recommendations.

Iterate and Test: Apply the testing frameworks consistently. Data-driven decisions compound over time.

Combine Prompts: Many prompts work together. Use campaign strategy prompts, then apply relevant copywriting and analysis prompts to the same campaign.

Document Results: Track which prompt applications yield the best results for your business. Build your own playbook.

The AI Advantage

These prompts leverage AI to provide expertise that would typically require hiring expensive agencies or consultants. You get strategic thinking, creative direction, and analytical frameworks on demand—scaling your marketing capabilities without scaling your costs.

Your Next Steps

1. **Audit your current campaigns** using diagnostic prompts (91-95)
2. **Identify your biggest opportunity** from strategy prompts (1-30)
3. **Implement one testing framework** from prompts (71-85)
4. **Refine your creative** using copywriting prompts (31-50)
5. **Scale what works** with optimization prompts (51-70)

Final Thoughts

Facebook advertising success isn't about spending more—it's about spending smarter. These 100 prompts give you the strategic frameworks, creative approaches, and analytical tools to compete effectively regardless of budget size.

The most successful advertisers test constantly, learn quickly, and optimize relentlessly. With these prompts as your guide, you now have the structure to do exactly that.

Start with one prompt today. Apply it to your biggest challenge. Measure the results. Then move to the next.

Your optimized Facebook campaigns await.

Thank you for your purchase.

Put this into action today — not tomorrow.
